REFERENCE

TIS GROUP Ltd. is pleased to give this recommendation to THERMOCOL Ltd. due to the following:
In 2015, at many of our projects, located in Sofia, were used Thermocol® brand materials.
THERMOCOL Ltd. has a wide range of products necessary for the completion of a building, which fully meet our requirement for high quality, therefore we recommend it to future investors.
This reference is issued on TERMOKOL Ltd. to serve wherever and whenever is necessary.

Sincerely
TIS GROUP Ltd

THERMOCOL
Our products are your solution

Dear Sir/Madam,

We are pleased to kindly introduce to your attention Thermocol.

Who we are:
THERMOCOL is a product-engineering company aiming to facilitate and support its customers in choosing the best interior, exterior and product solutions for their needs.
Our greatest priority is to discover and satisfy our customers' needs at every stage of realization of their projects. That is why we provide a wide range of solutions, due to which our customers complete their projects on time and receive security of their investment.
THERMOCOL was established to serve the end-user with high quality and high indicators products in the hobby and semi-professional segment. By high indicators we mean products with above the average and top standard indicators for the particular class.
Our mission and goals
THERMOCOL is an innovative company created by professionals with extensive experience in the sale and services of products for the construction industry.
Our goal is:
Through our products and services to create harmonious homes, that predispose people to be happier, to feel comfortable, to raise their children in a safer environment, to be satisfied and proud of their homes. We strive to be innovative and create easy-to-implement solutions so our products can bring confidence to our customers that they have made the best choice.
Our mission is to create a greener environment in which people can develop their potential and be satisfied and motivated.

Brezza di colori® is our own brand. Some of the services and products that we offer are:

- Decorative paints and plasters for interior and exterior. Lime products.
- Training of workmen at our customers' choice, introducing the technical specifications and work with certain products of our product range. We provide this service on site and on the territory of the whole country.
- Professional training courses for craftsmen
- Realization of our clients' projects, by our professional craftsmen
- Standard catalog coloring for the decorative plasters and paints, plus developing new solutions for individual needs.
- Individual consultations and visualizations.
- Interior furnishing and design

Our product range is constantly increasing.

In connection with the expansion and promotion of THERMOCOL on foreign markets we are looking for partners in Lebanon.

Thank you very much for your attention! Greetings from our team!
