# BALVINGLASS

## PRODUCT CATALOGUE 2014

This is product catalogue of Balvinglass for 2014. Balvinglass s.r.o. is located in Northern Bohemia and its manufacture is entirely focusing on the manufacture of Bohemia Glass and on its decorations.

We are small company which is operating with own capital and apart from our own decoration technologies we also operate our hand – blown manufacture department which allows us to deliver quality as well as design products to our customers.

Our customers are from variety of backgrounds. From small corner shop which serves primary to individuals, over wholesale partners to the referential customers such as the Ministry of Foreign affairs Czech Republic and its headquarters in Cerninsky Palace. Furthermore in 2014 we became official registered supplier to NATO administration.

In this document you will be able to find most of our production and our products that are either from our own production or sourced based on our regional relationships with our partners so we can deliver big scale of service to all of those who are looking for complete delivery from Bohemia Glass to Bohemia Crystal, from design product to heavy decorations and even we carry opportunities with non-decorated products suited for HORECA or gastro.

Although having thousands of possibilities in shapes, design and decorations, that we would not be able to reflect in our catalogue, we hope, that you will either be able to choose from our range mentioned in this catalogue, or you will get in touch with us and talk about more options.

## **ABOUT US AND OUR REGION**

### **NOVY BOR REGION**

Novy Bor region is a cradle of Bohemia Glass that dates back to 14th century as the first historical sources talk about the strong region and its industries. Our company is one of those who are trying to carry this tradition and legacy further to the future.

### **BALVINGLASS IS**

First small company in our region, that is official supplier to the NATO and it is first manufacture to be contractor with the Ministry of Foreign affairs in our segment.

Our focus is mainly to Russian and former Russian market, Europe Union, but we also have our customers that are looking to work with us in the other world regions.

Our technology portfolio allows us to take on almost any project and it has been welcomed by those who are either looking to purchase valuable gift set, design products or just have their logo sand blasted onto chosen type of glass for their promotion purpose.

### **DURING THE YEARS**

During the years we developed many relations and friendships in the segment of Bohemia Glass and Bohemia Crystal segment and so, we were able to generate service portfolio.

Our service portfolio allows anyone to contact us with their demand or questions for support with their existing accounts. It has been known that the service is sinking in

the low numbers and so, customer service has the same behavior. If you are a customer of any other company within the Bohemia Glass and Bohemia Crystal segment you have the opportunity to connect with us and we will see whether we could help to lower your cost or to negotiate any other advantage in consideration of raising the customer support for you and your needs.
